

# Your Verengo Customer Center

Log In & Track Your Installation at [www.VerengoSolar.com/MyInstallation](http://www.VerengoSolar.com/MyInstallation)

## 1 Your Site Assessment (1 Day)

We measure your roof and sun exposure so we can custom design your system.

## 2 Your System Design (1-2 Weeks)

Our experts will design your best custom solution.

## 3 Final System Agreement (1-2 Days)

We will send you the final agreement to sign based upon the system design.

## 4 Permits (Approx. 1-4 Weeks)

We'll get a construction permit from the city, and we'll provide plans to your Homeowner's Association, if you have one.

## 5 Your Installation (1-3 Days)

This usually takes just a day for our Award Winning professional installers.

## 6 City Inspection (1-2 Weeks, depending on city)

We get your system cleared by the city and notify your utility company.

## 7 Utility Approval & Activation! (1-12 Weeks, depending on the utility)

The day you've been waiting for! When your utility company gives their approval to flip the switch and start powering your home.
